Distributor Specific Fee Disclosure

Acknowledging that the payment of the fees described below may lead to a potential conflict of interests between the party receiving the fees (the "Receiving Party") and the investor, the investor hereby confirms that he/she/it is aware of the fees described below, including their amount, and explicitly agrees that the Receiving Party may retain such fees and shall not be required to pass them on to the investors.

Further information on the fees described below is available from the Issuer or the Distributor upon the investor's written request.

Structuring Fee	The Issuer may pay a fee of up to 0.50% p.a. of the Issue Price (the "Structuring Fee"), in consideration for the intermediary's role in the inception of the product. A portion of such Structuring Fee may be allocated to sub-distributors, as Placement Fee.
-----------------	--

Tax Treatment Switzerland

Bondfloor at issue	96.40% (USD 964.00 per Nominal)
Swiss Federal Stamp Duty	The Product qualifies as a taxable security (bond). In principle secondary market transactions are subject to Swiss Stamp Duty.
Swiss Federal Income Tax	For Swiss tax purposes this Product is qualified as a combination of an option and a bond, where the majority of the return is in the form of a discount or of one payment on redemption date (IUP). For private Investors resident in Switzerland the increase of the bond floor* at sale or redemption respectively are subject to income tax. However, any gain derived from the option (if an option is included in the Product) is therefore for such Investors considered as capital gain and is not subject to income tax.
Swiss Withholding Tax	* For Products which are not denominated in Swiss Francs, the bondfloor has to be converted into Swiss Francs at the prevailing exchange rate at sale or redemption and at purchase. This Product is not subject to the Swiss Issuer Withholding Tax. It depends on the jurisdiction of the issuer whether a foreign issuer withholding tax applies.
EU Savings Tax	For paying agents in Switzerland, the Product is not subject to the EU Savings Tax (TK7).
Bilateral Agreements Switzerland – UK and Austria	For paying agents in Switzerland, the product is subject to the bilateral agreement on cooperation in the area of taxation of Switzerland with the United Kingdom or with Austria if it is held directly or indirectly by a relevant person resident in the United Kingdom or in Austria.

Additionally, any delivery of underlying might be subject to fees and/or non-Swiss stamp duty.

The tax information only provides a general overview over the Swiss tax consequences linked to this product based on the tax laws and the practice of the tax administration at the time of issue. Tax laws and the practice of tax administrations may change, possibly with retroactive effect.

Classification

This Product does not represent a participation in any of the collective investment schemes pursuant to Art. 7 ff of the Swiss Federal Act on Collective Investment Schemes (CISA) and thus does not require an authorisation of the Swiss Financial Market Supervisory Authority (FINMA). Therefore, Investors in this Product are not eligible for the specific investor protection under the CISA. Moreover, Investors in this Product bear the issuer risk.

Furthermore, this Product does not benefit from any depositor protection under Art. 37b under the Swiss Federal Law on Banks and Savings Banks (Banking Act) or other forms of deposit insurance under any other law as might be applicable to this Product.

2. Prospects of Profits and Losses

Market Expectation	Investors in this Product expect the Underlying to trade positively. In any case Investors expect that the Kick-Out Level will not be touched.
--------------------	--

Effect of the performance of the Underlying on the redemption amount or on the delivery obligation:

- Positive performance If the Underlying performs positively, Investors realise a positive return.
- Sideways to slightly negative performance If the Underlying performs sideways to slightly negative, Investors will receive their initial investment.

- Pronounced negative performance If the Underlying performs negatively and additionally the Kick-Out Level has been touched, Investors may lose some or all of their investment.

Maximum Return The profit potential is unlimited.
 Maximum Loss Investors may lose some or all of the investment as they are fully exposed to the performance of the Underlying.

3. Significant Risks for Investors

General risk warning Potential Investors should understand the risks associated with an investment in the Product and shall only reach an investment decision after careful considerations with their legal, tax, financial and other advisors of (i) the suitability of an investment in the Product in the light of their own particular financial, fiscal and other circumstances; (ii) the information set out in this document and (iii) the Underlying(s). The following is a summary of the most significant risks. Further risks are set out in the Product Documentation.

Risk Tolerance Investors in this Product should be experienced Investors and familiar with both derivative products and the stock markets.

Product specific risks

Loss Potential	Investors may lose some or all of their investment as they are fully exposed to the performance of the Underlying.
Capital Protection (at Expiry)	None
Risk Potential in comparison to a direct investment in the Underlying	The Kick-Out Level limits the risk exposure compared to a direct investment. However, once the Kick-Out Level is touched, the risk potential is similar as with a direct investment in the Underlying.
Issuer Call right	None
Stop Loss Event	None
Extraordinary termination risk	The Product contains terms and conditions that allow the Issuer to terminate and redeem the Product prior to the Redemption Date. In case of such extraordinary termination, the Issuer shall pay to the Investors an extraordinary termination amount as determined by the Calculation Agent which is usually equivalent to the market value of the Product. Potential Investors should note that the extraordinary termination amount may deviate from and may be considerably below the amount which would be payable pursuant to the final redemption provisions on the Redemption Date. Investors are not entitled to request any further payments on the Product after the termination date.
Adjustment risk	Potential Investors should be aware that it cannot be excluded that certain events occur or certain measures are taken (by parties other than the Issuer) in relation to the Underlying(s) which can lead to changes to the Underlying(s) or its concept (e.g. corporate events of a company whose shares constitute an Underlying, market disruption events or other circumstances affecting normal activities). In the case of the occurrence of such events or measures, the Issuer and/or the Calculation Agent are entitled to effect adjustments according to the Product Documentation. Such adjustments might have a negative impact on the value of the Product.
Illiquidity risk in secondary market	The Issuer or the Lead Manager, as applicable, intends, under normal market conditions, to provide bid and/or offer prices for this Product on a regular basis. However, the Issuer or the Lead Manager, as applicable, makes no firm commitment to provide liquidity by means of bid and/or offer prices for this Product, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices. Potential Investors therefore should not rely on the ability to sell this Product at a specific time or at a specific price. Potential Investors should note that prices quoted typically include a spread and therefore may deviate from the market value of the Product. In special market situations, where the Issuer is completely unable to enter into hedging transactions, or where such transactions are very

	<p>difficult to enter into, the spread between the bid and offer prices in the secondary market may be temporarily expanded, in order to limit the economic risks of the Issuer. Hence, Investors might sell at a price considerably lower than the actual price of the Product at the time of its sale. By selling the Product in the secondary market Investors may receive less than the capital invested.</p> <p>In case of a secondary market transaction, there is a possibility that costs, including taxes, related to or in connection with the Product may arise for Investors that are not paid by the Issuer or imposed by the Issuer.</p>
Market Disruption risk	<p>Investors are exposed to market disruption events (such as trading disruption, exchange disruption and early closure of the relevant exchange), which could have an impact on the redemption amount through delay in payment, change in value or suspension of trading in the Product in the secondary market. For a detailed description of such events and their effects please refer to the Product Documentation.</p>
Withholding tax	<p>Investors in this Product should note that any payment under this Product may be subject to withholding tax (such as, inter alia, Swiss Withholding Tax, and/or withholding related to FATCA or 871(m) of the US Tax Code). Any payments due under this Product are net of such tax. Please refer to the General Terms and Conditions for detailed information. If the Issuer is required to withhold any amount pursuant to Section 871(m) or FATCA of the U.S. Tax Code, the Issuer will not be required to pay additional amounts with respect to the amount so withheld.</p>

Risk Factors relating to the Issuer

In addition to the market risk with regard to the development of the Underlying, each Investor bears the general risk that the financial situation of the Issuer could deteriorate. The Products constitute immediate, unsecured and unsubordinated obligations of the Issuer, which, particularly in case of insolvency of the Issuer, rank *pari passu* with each and all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of those that have priority due to mandatory statutory provisions. The general assessment of the Issuer's creditworthiness may affect the value of the Products. This assessment generally depends on the ratings assigned to the Issuer or its affiliated companies by rating agencies such as Moody's, Fitch and Standard & Poor's.

The Issuer Ratings indicated in this document reflect the situation at the time of issuance and may be subject to changes. The actual Issuer Ratings at any given time can be seen on the Issuer's website (www.ubs.com) under "Analysts & Investors".
