Swiss Withholding Tax	This product is not subject to the Swiss Issuer Withholding Tax. It depends on the jurisdiction of the issuer whether a foreign issuer withholding tax applies.

Additionally, any delivery of underlying might be subject to fees and/or non-Swiss stamp duty.

## 2. Prospects of Profits and Losses

Market Expectation Investors in this Product expect all Underlyings to trade sideways. In any case Investors expect that none of the Underlyings close below the Strike Level.

Effect of the performance of the Underlying on redemption amount or on delivery obligation:

- Positive performance If all Underlyings perform positively, Investors realise a positive return.

<b>Contact:</b> UBS AG, P.O. Box, 8098 Zürich	<b>Private Investors:</b> Please contact your client advisor or send an email to <a href="mailto:keyinvest@ubs.com">keyinvest@ubs.com</a>
<b>Internet:</b> <a href="http://www.ubs.com/keyinvest">www.ubs.com/keyinvest</a>	<b>Product Hotline:</b> +41-44-239 76 76*

Investors outside of Switzerland should consult their local client advisors.  
 Please note that calls made to the numbers marked with an asterisk (\*) may be recorded. Should you call one of these numbers, we shall assume that you consent to this business practice.

- Sideways to slightly negative performance	If all Underlyings perform sideways to slightly negative, Investors still realise a positive return.
- Pronounced negative performance	If one of the Underlyings performs negatively and additionally closes below the Strike Level, Investors may lose some or all of their investment (irrespective of the performance of the other Underlyings).
Maximum Return	The profit potential is limited to the discount.
Maximum Loss	Investors may lose some or all of the investment as they are fully exposed to the performance of the worst performing Underlying.

### 3. Significant Risks for Investors

General risk warning	Potential Investors should understand the risks associated with an investment in the Product and shall only reach an investment decision after careful considerations with their legal, tax, financial and other advisors of (i) the suitability of an investment in the Product in the light of their own particular financial, fiscal and other circumstances; (ii) the information set out in this document and (iii) the Underlying(s). The following is a summary of the most significant risks. Further risks are set out in the Product Documentation.
Risk Tolerance	Investors in this Product should be experienced Investors and familiar with both derivative products and the stock markets. Although Investors benefit from a predefined, regular coupon payment, they must be willing to make an investment that is exposed to the full down-side risk of the worst performing Underlying. A high coupon can indicate a higher risk, in that the rate of the coupon relative to the rate of the risk-free return indicates the overall risk of the product. Multiple Underlyings (with worst-of feature) allow for a higher return, but at the same time increase the overall risk to Investors.

#### Product specific risks

Loss Potential	Investors may lose some or all of the investment as they are fully exposed to the performance of the worst performing Underlying.
Capital Protection (at Expiry)	None
Risk potential is similar to a direct investment in the Underlying	The Strike Levels limit the risk exposure compared to a direct investment. However, once one of the Strike Levels is touched, the risk potential is similar as with a direct investment in the worst performing Underlying.
Issuer Call right	None
Stop Loss Event	None
Extraordinary termination risk	The Product contains terms and conditions that allow the Issuer to terminate and redeem the Product prior to the Redemption Date. In case of such extraordinary termination, the Issuer shall pay to the Investors an extraordinary termination amount as determined by the Calculation Agent which is usually equivalent to the market value of the Product. Potential Investors should note that the extraordinary termination amount may deviate from and may be considerably below the amount which would be payable pursuant to the final redemption provisions on the Redemption Date. Investors are not entitled to request any further payments on the Product after the termination date.
Adjustment risk	Potential Investors should be aware that it cannot be excluded that certain events occur or certain measures are taken (by parties other than the Issuer) in relation to the Underlying(s) which can lead to changes to the Underlying(s) or its concept (e.g. corporate events of a company whose shares constitute an Underlying, market disruption events or other circumstances affecting normal activities). In the case of the occurrence of such events or measures, the Issuer and/or the Calculation Agent are entitled to effect adjustments according to the Product Documentation. Such adjustments might have a negative impact on the value of the Product.
Illiquidity risk in secondary market	The Issuer or the Lead Manager, as applicable, intends, under normal market conditions, to provide bid and/or offer prices for this Product on a regular basis. However, the Issuer or the Lead Manager, as applicable, makes no firm commitment to provide liquidity by means of bid and/or offer prices for this Product, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices. Potential Investors therefore should not rely on the ability to sell this Product at a

specific time or at a specific price. Potential Investors should note that prices quoted typically include a spread and therefore may deviate from the market value of the Product. In special market situations, where the Issuer is completely unable to enter into hedging transactions, or where such transactions are very difficult to enter into, the spread between the bid and offer prices in the secondary market may be temporarily expanded, in order to limit the economic risks of the Issuer. Hence, Investors might sell at a price considerably lower than the actual price of the Product at the time of its sale. By selling the Product in the secondary market Investors may receive less than the capital invested.

In case of a secondary market transaction, there is a possibility that costs, including taxes, related to or in connection with the Product may arise for Investors that are not paid by the Issuer or imposed by the Issuer.

#### Market Disruption risk

Investors are exposed to market disruption events (such as trading disruption, exchange disruption and early closure of the relevant exchange), which could have an impact on the redemption amount through delay in payment, change in value or suspension of trading in the Product in the secondary market. For a detailed description of such events and their effects please refer to the Product Documentation.

#### Withholding tax

Investors in this Product should note that any payment under this Product may be subject to withholding tax (such as, inter alia, Swiss Withholding Tax, and/or withholding related to FATCA or 871(m) of the US Tax Code). **Any payments due under this Product are net of such tax.** Please refer to the General Terms and Conditions for detailed information. If the Issuer is required to withhold any amount pursuant to Section 871(m) or FATCA of the U.S. Tax Code, the Issuer will not be required to pay additional amounts with respect to the amount so withheld.

### **Risk Factors relating to the Issuer**

In addition to the market risk with regard to the development of the Underlying, each Investor bears the general risk that the financial situation of the Issuer could deteriorate. The Products constitute immediate, unsecured and unsubordinated obligations of the Issuer, which, particularly in case of insolvency of the Issuer, rank *pari passu* with each and all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of those that have priority due to mandatory statutory provisions. The general assessment of the Issuer's creditworthiness may affect the value of the Products. This assessment generally depends on the ratings assigned to the Issuer or its affiliated companies by rating agencies such as Moody's, Fitch and Standard & Poor's.

The Issuer Ratings indicated in this document reflect the situation at the time of issuance and may be subject to changes. The actual Issuer Ratings at any given time can be seen on the Issuer's website ([www.ubs.com](http://www.ubs.com)) under "Analysts & Investors".
