Reference-Portfolio Level Sum of all Reference-Portfolio Components taking into consideration their respective weightings whereby a Constituent is valued at the closing price published by the primary exchange of the Constituent. The calculation also takes into account the effect of the Reference-Portfolio Fee. The Reference-Portfolio Level is calculated for each Business Day by the Calculation Agent on the next Business Day.

If a Business Day is not an Exchange Business Day for any Reference-Portfolio Constituent, then the price for such Reference-Portfolio Constituent used to calculate the Reference-Portfolio Level will be the price of the previous Exchange Business Day for such Reference-Portfolio Constituent.

Dividends Any amounts reflecting net dividends of the Reference-Portfolio Constituents will be added to the cash position of the Reference-Portfolio.

## Product Structure

The Product allows for participation in the performance of the Reference-Portfolio. The Reference-Portfolio is a notional actively managed portfolio, created and maintained by the Reference-Portfolio Advisor. The Reference-Portfolio aims to replicate the performance of equities and from time to time a cash position, less expenses.

### Reference-Portfolio Guidelines

#### The BPER Oil & Gas Basket – Quanto (USD)

The **BPER Oil & Gas Basket** (the "Reference-Portfolio") is a notional USD ("Quanto USD") denominated actively managed Reference-Portfolio, created and maintained by **Banque Privée Edmond de Rothschild, Geneva**, (the "Reference-Portfolio Advisor"). The Reference-Portfolio aims to replicate (i) the performance of a basket of global stocks (the "Constituents"), and (ii) from time to time, a cash position (the "Cash Position", which together with the Constituents shall be referred to as the "Reference-Portfolio Components"), less fees and expenses. Furthermore, the Performance of the stocks positions held in foreign currencies will be calculated in USD (Quanto USD). The Reference-Portfolio Advisor maintains the Reference-Portfolio in accordance with the attached Reference-Portfolio Guidelines (Annex). The Reference-Portfolio Components are selected by the Reference-Portfolio Advisor in accordance with the following guidelines (the "**Reference-Portfolio Guidelines**"):

1. Only Equities (the "**Investment Universe**") listed on global stock exchanges (as determined by the Reference-Portfolio Advisor) may be incorporated as Reference-Portfolio Constituents in the Reference-Portfolio ("**Eligible Shares**").

In case of a Rebalancing the theoretical volume of a buy or sell order for a Constituent is limited to 200% of the average traded daily volume of that Constituent. A Rebalancing may happen at the discretion of the Reference-Portfolio Advisor. The Calculation Agent has the right to reject constituents that form part of a Rebalancing. The theoretical volume is defined as the number of outstanding Certificates multiplied by the Reference-Portfolio Level (using the appropriate foreign exchange rate to convert into the currency of the Constituent) and multiplied by the change in the percentage weight of the Constituent. The average traded daily volume is defined as the 30 Day average trading turnover. The expected number of Rebalancings per year is 52.

At any time, the Reference-Portfolio may reflect a cash position which mirrors the holding of cash, money market instruments or cash obligations (the "Cash Position"). No interest will be paid on the Cash Position.

A Quarterly fee of 0.325% (1.30% per year) of the Reference-Portfolio Level accrued on a daily basis, plus (i) certain expenses commonly to be associated with establishing, maintaining and rebalancing a portfolio similar to the notional portfolio mirrored by the Reference-Portfolio and (ii) the Adjustment Fee, charged by the Calculation Agent and deducted from the Reference-Portfolio Level. The dates of the fee deduction are 31 March, 30 June, 30 September and 31 December (in case any of the dates is not a Business Day, the next following Business Day will apply). A part of the Reference-Portfolio Fee will be used to compensate the Reference Portfolio Advisor.

An Adjustment Fee is levied for each adjustment made in the Reference-Portfolio, and represents a percentage of the notional volume of each of the purchase and/or sale of an Eligible Stock. The Adjustment Fee was set by the Reference-Portfolio Advisor in accordance with the Reference-Portfolio Calculation Agent at 0.05% as at the Launch Date. The Reference-Portfolio Fee is accrued on a daily basis and paid on a quarterly basis, on 31 March, 30 June, 30 September and 31 December should any of these dates fall on a day which is not a Business Day, the Fee is paid on the next Business Day).

The Reference-Portfolio is denominated in USD, while the Constituents, notionally comprised in the Reference-Portfolio, might be denominated in other currencies than USD. The Reference Portfolio is not exposed to any foreign exchange rate.

The below Universe can be amended in agreement between the Calculation Agent and the Reference-Portfolio Advisor. The Calculation Agent has the right to reject Constituents that form part of a Rebalancing.
