## Redemption

The Investor is entitled to receive from the Issuer on the Redemption Date an amount in the Settlement Currency, according to the following scenarios:

Scenario 1	If a <b>Barrier Event</b> has <b>NOT</b> occurred and the Underlying is <b>above the Strike Level</b> , the Investor will receive a cash amount according to the following formula: $\text{Nominal} * [\text{Capital Protection} + \text{Participation} * (\text{Expiration Value} - \text{Strike Level})]$
Scenario 2	If a <b>Barrier Event</b> has <b>NOT</b> occurred and Underlying is <b>at or below</b> the Strike Level, the Investor will receive the Capital Protection.
Scenario 3	If a <b>Barrier Event</b> has <b>occurred</b> , the Investor will receive a cash amount according to the following formula: $\text{Nominal} * (\text{Capital Protection} + \text{Rebate})$
Expiration Value	The Expiration Value is determined by the Calculation Agent according to the following formula: $\frac{\text{Underlying}(\text{FinalLevel})}{\text{Underlying}(\text{InitialLevel})}$ <p>Where:            Underlying (InitialLevel) = As specified in the table "Information on Underlying" in column "Initial Underlying Level" above            Underlying (FinalLevel) = Index Reference Price for the Underlying on the relevant Expiration Date</p>
Barrier Event	A Barrier Event shall be deemed to occur if, on any Exchange Business Day during the period from and including the Pricing Date to and including the Expiration Date, the Underlying Price is at or above the Barrier Level, as reasonably determined by the Calculation Agent.

## Product Structure

The Dolphin CPN enables the Investor to achieve a Participation in the Underlying up to a Barrier Level. If the Underlying never trades at or above the Barrier Level the investor receives 100% of the Nominal and participates in the positive Underlying performance up to the Barrier Level. If the Underlying ever trades at or above the Barrier Level, the investor receives at Redemption 100% of the Nominal plus the Rebate. The minimum repayment at maturity will be the Capital Protection.

## Tax Treatment Switzerland

Indicative Bond floor at issue	95.07% (USD 950.69 per Nominal)
Swiss Transfer Stamp Duty	The product qualifies as a taxable security (bond). In principle secondary market transactions are subject to Swiss Stamp Duty.
Swiss Income Tax	For tax purposes this product is qualified as a combination of an option and bond, where the majority of the return of the bond part is in the form of a discount or of one payment on redemption date (IUP). For private investors with tax domicile in Switzerland the increase of the value of the bond part (according to the "Modifizierte Differenzbesteuerung") at sale or maturity is subject to Swiss federal as well as cantonal and communal income tax. Such an investor is taxed on the difference between the bondfloor at purchase* and the bond floor at sale or redemption*. However, any gain derived from the option is considered as capital gain and is therefore for such investors subject to neither Swiss federal nor cantonal and communal income tax. *each to be converted into CHF at the prevailing exchange rate at purchase and sale or redemption (if applicable).
Swiss Withholding Tax	The product is not subject to the Swiss Withholding Tax. It depends on the jurisdiction of the issuer whether a foreign issuer withholding tax applies.

The tax information only provides a general overview over the Swiss tax consequences linked to this product based on the tax laws and the practice of the tax administration at the time of issue. Tax laws and the practice of tax administrations may change, possibly with retroactive effect.

## Classification

This Product does not represent a participation in any of the collective investment schemes pursuant to Art. 7 ff of the Swiss Federal Act on Collective Investment Schemes (CISA) and thus does not require an authorisation of the Swiss Financial Market Supervisory Authority (FINMA). Therefore, Investors in this Product are not eligible for the specific investor protection under the CISA. Moreover, Investors in this Product bear the issuer risk.

 Please note that calls made to the numbers marked with an asterisk (\*) may be recorded. Should you call one of these numbers, we shall assume that you consent to this business practice.

Furthermore, this Product does not benefit from any depositor protection under Art. 37b under the Swiss Federal Law on Banks and Savings Banks (Banking Act) or other forms of deposit insurance under any other law as might be applicable to this Product.

## 2. Prospects of Profits and Losses

Market Expectation	Investors in this Product expect the Underlying to trade moderately positive up to the predefined barrier. However, they do not primarily anticipate that this level will be touched or breached at any time during the lifetime of the product.
Effect of the performance of the Underlying on the redemption amount or on the delivery obligation:	
<ul style="list-style-type: none"> <li>Positive performance</li> </ul>	If the Underlying performs positively, Investors realise a positive return. If the Underlying trades at or above the barrier during the lifetime of the product, Investors will receive at least the Capital Protection plus the Rebate.
<ul style="list-style-type: none"> <li>Sideways to slightly negative performance</li> </ul>	If the Underlying performs sideways to slightly negative, Investors will receive at least the Capital Protection.
<ul style="list-style-type: none"> <li>Pronounced negative performance</li> </ul>	If the Underlying performs negatively, Investors will receive at least the Capital Protection.
Maximum Return	The profit potential is limited.
Maximum Loss	Investors may not lose more than the difference between the purchase price and the Capital Protection.

## 3. Significant Risks for Investor

General risk warning	Potential Investors should understand the risks associated with an investment in the Product and shall only reach an investment decision after careful considerations with their legal, tax, financial and other advisors of (i) the suitability of an investment in the Product in the light of their own particular financial, fiscal and other circumstances; (ii) the information set out in this document and (iii) the Underlying(s). The following is a summary of the most significant risks. Further risks are set out in the Product Documentation.
Risk Tolerance	Investors in this Product should be experienced Investors and familiar with both derivative products and the stock markets. Although Investors benefit from a predefined, regular coupon payment, they must be willing to make an investment that is exposed to the full down-side risk of the Underlying.  A high coupon can indicate a higher risk, in that the rate of the coupon relative to the rate of the risk-free return indicates the overall risk of the product.

### Product Specific Risks

Loss Potential	On the Redemption Date, the risk of loss is - subject to the credit risk of the Issuer - limited to the difference between the purchase price and the Capital Protection.
Capital Protection	Yes. Moreover, Investors are exposed to the credit risk of the Issuer.
Risk Potential in comparison to a direct investment in the Underlying	The Capital Protection limits the risk exposure compared to a direct investment.
Issuer Call right	None
Stop Loss Event	None
Extraordinary termination risk	The Product contains terms and conditions that allow the Issuer to terminate and redeem the Product prior to the Redemption Date. In case of such extraordinary termination, the Issuer shall pay to the Investors an extraordinary termination amount as determined by the Calculation Agent which is usually equivalent to the market value of the Product. Potential Investors should note that the extraordinary termination amount may deviate from and may be considerably below the amount which would be payable pursuant to the final redemption provisions on the Redemption Date. Investors are not entitled to request any further payments on the Product after the termination date.

Adjustment risk	Potential Investors should be aware that it cannot be excluded that certain events occur or certain measures are taken (by parties other than the Issuer) in relation to the Underlying(s) which can lead to changes to the Underlying(s) or its concept (e.g. corporate events of a company whose shares constitute an Underlying, market disruption events or other circumstances affecting normal activities). In the case of the occurrence of such events or measures, the Issuer and/or the Calculation Agent are entitled to effect adjustments according to the Product Documentation. Such adjustments might have a negative impact on the value of the Product.
Illiquidity risk in secondary market	<p>The Issuer or the Lead Manager, as applicable, intends, under normal market conditions, to provide bid and/or offer prices for this Product on a regular basis. However, the Issuer or the Lead Manager, as applicable, makes no firm commitment to provide liquidity by means of bid and/or offer prices for this Product, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices.</p> <p>Potential Investors therefore should not rely on the ability to sell this Product at a specific time or at a specific price. Potential Investors should note that prices quoted typically include a spread and therefore may deviate from the market value of the Product. In special market situations, where the Issuer is completely unable to enter into hedging transactions, or where such transactions are very difficult to enter into, the spread between the bid and offer prices in the secondary market may be temporarily expanded, in order to limit the economic risks of the Issuer. Hence, Investors might sell at a price considerably lower than the actual price of the Product at the time of its sale. By selling the Product in the secondary market Investors may receive less than the capital invested.</p> <p>In case of a secondary market transaction, there is a possibility that costs, including taxes, related to or in connection with the Product may arise for Investors that are not paid by the Issuer or imposed by the Issuer.</p>
Market Disruption risk	Investors are exposed to market disruption events (such as trading disruption, exchange disruption and early closure of the relevant exchange), which could have an impact on the redemption amount through delay in payment, change in value or suspension of trading in the Product in the secondary market. For a detailed description of such events and their effects please refer to the Product Documentation.
Withholding tax	Investors in this Product should note that any payment under this Product may be subject to withholding tax (such as, inter alia, Swiss Withholding Tax, and/or withholding related to FATCA or 871(m) of the US Tax Code). <b>Any payments due under this Product are net of such tax.</b> Please refer to the General Terms and Conditions for detailed information. If the Issuer is required to withhold any amount pursuant to Section 871(m) or FATCA of the U.S. Tax Code, the Issuer will not be required to pay additional amounts with respect to the amount so withheld.

## **Risk Factors relating to the Issuer**

In addition to the market risk with regard to the development of the Underlying, each Investor bears the general risk that the financial situation of the Issuer could deteriorate. The Products constitute immediate, unsecured and unsubordinated obligations of the Issuer, which, particularly in case of insolvency of the Issuer, rank *pari passu* with each and all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of those that have priority due to mandatory statutory provisions. The general assessment of the Issuer's creditworthiness may affect the value of the Products. This assessment generally depends on the ratings assigned to the Issuer or its affiliated companies by rating agencies such as Moody's, Fitch and Standard & Poor's.

The Issuer Ratings indicated in this document reflect the situation at the time of issuance and may be subject to changes. The actual Issuer Ratings at any given time can be seen on the Issuer's website ([www.ubs.com](http://www.ubs.com)) under "Analysts & Investors".
